Venues

M. Chinnaswamy Stadium, Bengaluru

The season starts here on March 28, 7:30 PM IST. RCB against SRH. Still needs safety clearance from the Expert Committee on March 13, after what happened with the crowd in 2025. Capacity's locked at 35,000 if it goes ahead.

This would be the ground's 100th IPL match.

Chinnaswamy doesn't forgive bad bowling. Short boundaries, 900 metres altitude. The ball is carried in the thin air. Mistimed pulls clear the rope. Chasing teams won 53 of 99 matches here. Pitch stays good in both innings.

Kohli has 3,202 IPL runs at this ground. Nobody else at any single venue comes close. The fastest IPL century happened here. 30 balls.

Matches (pre-2026)	Avg 1st Innings Score	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
99	~166–168	47	53	287/3	55–60 m	65–70 m

Wankhede Stadium, Mumbai

Ask bowlers about defending here. They all say dew. Then maybe they mention the pitch.

Good bounce, fast outfield, short square sides. By innings two, dew's settled and the ball skids through.

Chasing teams won 67 of 123 matches. The toss basically writes itself.

MI hosts KKR on March 29, 7:30 PM IST. Match 2. Wankhede gets Match 20 too.

Rohit has 2,500-plus runs here. Malinga took 68 wickets. Both records.

Matches	Avg 1st Innings Score	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
123	~170	56	67	235/1	~64 m	Up to 82 m

ACA Stadium, Guwahati

RR's first-phase home. Three matches, then they move to Jaipur.

Not much IPL history here. Different climate from the rest.

Teams are reading conditions from ball one. RR opens against CSK on March 30, 7:30 PM IST. Match 3.

Matches 13 and 16 happen here, too. How the pitch plays across those three games will tell captains what this ground actually is.

Limited IPL data available. Still building its identity.

New PCA Stadium, Chandigarh (Mullanpur)

Mullanpur hasn't figured itself out yet. Six wins batting first, five chasing. Nearly split.

Dual-soil pitches mean the square varies. Drainage is good, so rain doesn't kill the day. PBKS opens here against GT on March 31. Match 4.

2025 saw the first innings average 180. High for IPL grounds. Priyansh Arya smashed 103 off 42 for PBKS against CSK. Ground record.

Avg 1st Innings Score (2025)	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
180	6	5	228/5	64–67 m	68–72 m

BRSABV Ekana Cricket Stadium, Lucknow

Ekana's still learning who it is. Early matches had lower scores. Totals climbed as more games got played.

Black-soil and red-soil tracks on the same square. Bounce and grip change match to match.

Teams winning the toss won 63 percent here. Conditions matter more than most places.

LSG hosts DC on April 1, 7:30 PM IST. Match 5.

Matches	Avg 1st Innings Score	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
19	167	8	10	245/6	66 m	77 m

Eden Gardens, Kolkata

High humidity meets evening dew. The second innings get easier.

Scoring has gone up in recent years. Long-term average sits around 166. Chasing teams won 56 of 97 matches. Under lights, it tilts harder.

KKR brings the tournament to Kolkata for Match 6 on April 2. SRH visiting.

Extremes live here. Lowest total: 49 all out. Highest: 262/2. That's the range.

Matches	Avg 1st Innings Score	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
97	~166	40	56	262/2	66–68 m	76–78 m

M. A. Chidambaram Stadium, Chennai

Chepauk ignores what works everywhere else. Red-soil pitch grips and slows as the game goes on. Shots that land at other grounds don't land here.

Teams batting first won 56.5 percent. That's backwards from the IPL norm. 2025 added three more 200-plus scores. Total's now 19. Something shifted slightly.

CSK hosts PBKS on April 3. Match 7. The crowd's loud from over one.

Right-arm bowlers took 745 wickets here. Left-armers took 277. Averages 11 sixes per match, one of the lowest in the competition.

Nobody's crossed 250. 92 matches played.

Matches	Avg 1st Innings Score	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
92	164.6	56.5%	43.5%	246/5	65–68 m	78–80 m

Arun Jaitley Stadium, Delhi

Something changed after they redid the pitch in 2023. Scores jumped. Haven't dropped.

Short square boundaries, quick outfield. Runs come from over one.

Big totals became standard. SRH hit 278/3 against KKR in 2025. New ground record.

DC hosts MI on April 4, 3:30 PM IST. Match 8. First game of a doubleheader day.

IPL 2024 saw 11.2 runs per over here. Highest scoring rate of any ground that season.

The spread between 66 all out (lowest ever) and 278/3 (highest) is wild.

Avg 1st Innings Score	Highest Total	Lowest Total	Square Boundary	Straight Boundary
210	278/3	66 all out	~65 m	68–70 m

Narendra Modi Stadium, Ahmedabad

Size alone changes everything. Biggest playing area this season. Long boundaries make scoring harder than most venues.

Black-soil and red-soil pitches on the square. Black-soil bounces better, carries more. Red soil dries faster, slows through innings. Toss and pitch choice matter here.

GT meets RR in Match 9 on April 4, 7:30 PM IST.

Batting first and chasing teams each won 22 matches. Most balanced ground in the IPL. Recent first innings have ranged from 172 to 221.

Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
22	22	243/5	67–74 m	75–80 m

Rajiv Gandhi International Stadium, Hyderabad

The historical average shows 163. That number's old news. Recent matches pushed past 200. Conditions went batting-friendly.

Dew arrives after 8:30 PM, kills spin grip. The second innings get easier to bat. Chasing teams won 47 of 83 matches.

SRH opens at home against LSG on April 5, 3:30 PM IST. Match 10.

Highest IPL total here: 286/6. As night falls, dew takes over.

Matches	Avg 1st Innings Score	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
83	~163	36	47	286/6	66–69 m	69–71 m

Sawai Mansingh Stadium, Jaipur

Of all the list of IPL 2026 venues with seating capacities, Jaipur has the strongest chasing trend. Pitch gives early seam, then dries and slows. Spinners come in mid-innings.

Evening dew during night games reduces grip for bowlers in the second dig. Chasing teams won 41 of 64 matches.

SMS doesn't show in the first 20 fixtures. RR plays early in Guwahati and comes back to Jaipur later.

Only eight totals crossed 200 here. Square boundaries around 72 metres keep scoring controlled.

Matches	Avg 1st Innings Score	Bat 1st Wins	Chase Wins	Highest Total	Square Boundary	Straight Boundary
64	164.9	23	41	219/5	~72 m	~75 m
